Dear Louis Elia,

Let me take this opportunity to tell you about a quality job completed on my home by Gws Contractors. Initially, my husband and I were overwhelmed with the stress of the type of work needed to be done. When work began, I was frantic with worry about the possibility of critters getting into my home. Then, when there was nothing between the outside world and our home, but a cellar doorway, our fears took on new proportions. I must tell you that throughout all of these anxieties, Eric reassured my husband and me (mostly me) constantly. The men with whom my husband and I met during this job, were trustworthy, reliable, and hardworking. It was evident that this was a company that employed caring individuals who understood the stressful situation we were facing. When my husband and I went to work daily, knowing we could entrust the care of our home to the GWS family, it was a testament to the quality of people employed by and the quality of work done by, the GWS family. Thank you Gary, Eric, Dennis, Paul, Bill, and Willie! I would be more than happy to recommend CWS Contractors in the future.

Sincerely,

Diane Jannuzzelli
